Terms and Conditions - Central Air Conditioning

Program Offer: The Program covers products purchased and/or services rendered on or after **January 1, 2025**.

Equipment and Installation Eligibility Requirements:

1. Members must provide a copy of the receipt to verify equipment installation. Invoices should contain size, efficiency, and model and serial numbers for all equipment.
2. A maximum of two (2) air conditioner rebates per residence is allowed.

Specific Requirements for Central Air Conditioners

Most residential air conditioning systems are split systems that consist of indoor and outdoor equipment with a SEER (Seasonal Energy Efficiency Ratio) that has been determined for each matching assembly. To be eligible, both a new outdoor unit (condenser) and a new matching indoor A-coil (evaporator) must be installed.

The installing contractor should provide the homeowner with the SEER and EER rating for their specific system. These ratings for matched equipment should also be listed in the online AHRI Unitary Directory at www.ahridirectory.org/.

General Terms and Conditions

Rebates shall be prorated based on the percent of power supplied by the Cooperative if the Member has distributed generation.

Application Information: Missing or incorrect information on the application may delay processing and delivery of the rebate. An invoice is required and should include specific product information, including the brand, model, serial number, and date of purchase of the energy efficient measures. Other information including manufacturer's equipment performance sheets may be required upon request. The Cooperative reserves the right to verify sales transactions and to have reasonable access to the Member's facility to inspect preexisting equipment (if applicable) and energy efficient measures installed under this program.

Warranty Information: The Cooperative makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship, or manufacturing. The Cooperative does not guarantee that a certain level of energy or cost savings will result from the use of products covered by this program.

Limitation of Liability: The Cooperative's liability in connection with this program is limited to paying the rebate specified when all terms and conditions have been satisfied. Under no circumstances shall the Cooperative be liable for any consequential or incidental damages or tax liability resulting from participation in this program.

Participant Certification: Participating Member certifies that he/she purchased and installed the equipment listed on their application at the defined location served by the Cooperative. The Member agrees that all information provided is true and that he/she has conformed to all program requirements. If the equipment and application does not comply with the Cooperative's rules and qualifications, the rebate amount may be denied or adjusted.

Program Changes/Termination: The Cooperative reserves the right to extend, modify (including incentive levels), or terminate this Program at any time without prior or further notice. The Member is responsible for checking with the Cooperative to determine whether the program has been changed or is still in effect.

Members must apply for rebates within six (6) months of the purchase date (as shown on the Member's invoice) and are subject to the current year program offer if received after January 31st. Past eligibility, however, does not guarantee that equipment will meet criteria for current programs in effect.
