

## Residential Air Source Heat Pump

PLEASE complete ALL sections, sign form and attach proof of purchase to ensure proper and prompt payment of rebate.

### Member Address Information (person receiving rebate) Check if wind or solar generation is installed.

First Name	Last Name	Account Number	Phone
Address		City	State Zip Email Address

### Equipment Location Information Check if same address as above:

First Name	Last Name	Account Number	Phone
Address		City	State Zip Email Address

Check the ACCOUNT TYPE where equipment is located:

<input type="radio"/> Residence Only	<input type="radio"/> Farm Only	<input type="radio"/> Apart.Bldg/Unit
<input type="radio"/> Resid./Farm	<input type="radio"/> Business Only	
<input type="radio"/> Resid./Business	<input type="radio"/> Commercial/Indust.	

Check if you are a builder/developer and building is not yet owned by live-in residents: "Spec Building"

### Rebate Summary

	Air Source Heat Pump Equipment			
Please Do Not Use Shaded Areas				
	<b>REBATE</b>			

See back of form for applicable rebates.

**Attach Proof of Purchase**

### Member Agreement (Must Sign)

I verify that the above described equipment was installed on the date and location specified. I agree to all program requirements provided (either separately or on back of this form) and that my electric Cooperative reserves the right to inspect all equipment and verify information before issuing a rebate.

## Terms and Conditions - Air Source Heat Pump Equipment and Rate

**Program Offer:** The Program covers products purchased and/or services rendered on or after **January 1, 2023**.

### Air Source Heat Pump (ASHP) Requirements

1. Eligible equipment includes air source heat pump, mini-split heat pumps and multi-split heat pumps.
2. Air source heat pumps must meet current federal minimum efficiency requirements and have a minimum capacity of 0.5 tons. Units must be rated in the *AHRI Certification Directory* (published by the Air-Conditioning Heating & Refrigeration Institute) which is available on-line at [www.ahridirectory.org](http://www.ahridirectory.org).
3. When installing a split system (most common type of residential unit) both a new outdoor unit (condenser) and a new indoor A-coil (evaporator) must be installed.
4. Rebates for air source heat pumps are based on the unit capacity for as expressed in cooling tons. The capacity rating provided in the *AHRI Directory* is expressed in "Btu/h." This amount must be divided by 12,000 to determine the number of tons (round to nearest half ton). Installing contractors should have this information or it can be found at [www.ahridirectory.org](http://www.ahridirectory.org).

### IMPORTANT NOTE:

Product Type	Rebate
All Air Source Heat Pumps	\$300 per ton

### General Terms and Conditions

Rebates shall be pro-rated based on the percent of power supplied by the utility if the customer has distributed generation.

**Application Information:** Missing or incorrect information on the application may delay processing and delivery of the rebate. An invoice is required and should include specific product information, including the brand, model, serial number and date of purchase of the energy efficient measures. Other information including manufacturer's equipment performance sheets may be required upon request.

The Utility reserves the right to verify sales transactions and to have reasonable access to the Customer's facility to inspect pre-existing equipment (if applicable) and energy efficient measures installed under this program.

**Warranty Information:** The Utility makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship or manufacturing. The Utility does not guarantee that a certain level of energy or cost savings will result from the use of products covered by this program.

**Limitation of Liability:** The Utility's liability in connection with this program is limited to paying the rebate specified when all terms and conditions have been satisfied. Under no circumstances shall the Utility be liable for any consequential or incidental damages or tax liability resulting from participation in this program.

**Participant Certification:** Participating Customer certifies that he/she purchased and installed the equipment listed on their application at the defined location served by the Utility. The Customer agrees that all information provided is true and that he/she has conformed to all program requirements. If the equipment and application does not comply with the Utility's rules and qualifications, the rebate amount may be denied or adjusted.

**Program Changes/Termination:** The Utility reserves the right to extend, modify (including incentive levels) or terminate this Program at any time without prior or further notice. The Customer is responsible for checking with the Utility to determine whether the program has been changed or is still in effect.

**Customers must apply for rebates within six (6) months of the purchase date (as shown on the Customer's invoice) and are subject to the current year program offer if received after January 31st.** Past eligibility, however, does not guarantee that equipment will meet criteria for current programs in effect.
